

What no one can give you, only God himself can give you. Therefore, instead of asking from the harmless creatures created by God in this world, ask from this Lord, the Most Gracious, the Most Merciful, the Almighty, surely He is going to bless you more than you think. Moreover, one should never make one's deprivations one's weakness. Rather, by making your deprivations your strength, you should always hope for the best from this Lord. Sometimes God blesses us in such a way that we are surprised. And at the same time, that Almighty, Forgiving and Merciful, Merciful, Merciful, removes every deprivation of our life and blesses us with a new life with a positive thought. Therefore, always keep the lamp of hope burning inside you with positive thinking. Thanks....!!!.
